SUMMARY

Software Engineer with hands-on experience designing and delivering scalable web and mobile applications, internal enterprise systems, and database-driven solutions. Strong background in Next.js, TypeScript, SQL, RESTful APIs and cloud-based architectures on Amazon Web Services (AWS), with a proven ability to translate complex business requirements into reliable, high-performance software in Agile environments. Adept at building intuitive user interfaces, optimizing system performance, and delivering production-ready solutions that balance technical robustness, usability, and maintainability.

SKILLS

Frontend: Next.js, React.js, Expo, React Native, HTML, CSS, SCSS, Tailwind CSS, Bootstrap CSS.

Backend: Express.js, Django, RESTful APIs, MySQL, MariaDB, PostgreSQL, NoSQL, Microsoft SQL Server (Transact-SQL), Supabase, Firebase, Amazon Web Services (AWS), XAMPP.

Languages: TypeScript, JavaScript, SQL, Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn), Java, C#, PHP.

Tools: Figma, Webflow, Vercel, Jira, Zephyr, Tableau, Microsoft Power BI, MySQL Workbench, GitHub (Git), Claude AI, ChatGPT, Gemini, DeepSeek.

EXPERIENCE

Software Engineer (Web & Internal Systems) at [Rayfitout](#) | Full-time, Remote | Dubai, AE

Nov 2025–Present

An award-winning interior design and fit-out firm specializing in high-end residential, commercial, and bespoke joinery projects across the Middle East, Europe, and Africa.

- Promoted to software engineer after an up-skilling period to continue contributing to the company's key projects.
- Led the end-to-end implementation of an Enterprise Resource Planning (ERP) software by converting complex business requirements into scalable workflows, resulting in improved process visibility and enhanced cross-departmental efficiency.
- Implemented development standards and deployment best practices, contributing to a more stable pipeline and reduced issues during production.
- Engineered efficient frontend components and a robust backend with optimized database design, ensuring high performance and system reliability.
- Developed intuitive dashboards and internal interfaces, improving usability for cross-departmental teams and accelerating workflow adoption.
- Maintained and enhanced core web development responsibilities from previous role, ensuring consistent performance, search engine optimization (SEO) health, and user experience across all devices.
- **Technologies used:** Next.js, HTML, SCSS, CSS, Lucidchart, TypeScript, JavaScript, React-PDF, MySQL, Amazon Web Services (AWS): Relational Database Service (RDS), Simple Storage Service (S3), Cognito; Webflow, GSAP, Figma, Git.

Web Developer at [Rayfitout](#) | Full-time, On-site | Dubai, AE

Jun 2025–Nov 2025

- Implemented best search engine optimization (SEO) practices, achieving #1 Google ranking for high-value terms and increasing inbound traffic.
- Implemented a pixel-perfect website from Figma balancing design, animation, and usability, earning positive client and visitor feedback.
- Fixed functional and visual bugs across screen breakpoints, boosting core web vitals by 40% and ensuring cross-device performance.
- Developed scalable layouts, reusable and complex components with animations, reducing development time for new web pages.
- Delivered a content management system (CMS)-powered website, streamlining blog and content updates without developer dependency.
- **Technologies used:** Webflow, HTML, CSS, JavaScript, GSAP, Figma.

Full-Stack Web Developer at Let There Be Fragrance | Freelance, Remote | Dubai, AE

May 2025–Jun 2025

A niche perfume house dedicated to crafting signature scents that embody elegance, individuality, and artistic expression.

- Collaborated with the brand's stakeholder to design and launch an e-commerce website.
- Integrated smooth real-time payments, enabling the brand to process online orders.
- Built an admin panel that enabled employees to manage inventory and product data.
- Ensured performance optimization, accessibility, and responsiveness across all browsers and devices.
- Enhanced user engagement with animations and a smooth user interface.
- Delivered web presence that expanded the brand's digital reach and supported its initial e-commerce launch.
- **Technologies used:** Next.js, TypeScript, Framer Motion, Tailwind CSS, Supabase: PostgreSQL, Authentication; Stripe, Vercel, Git, Figma.

Full-Stack Web Developer at Whealthy Vessel | Freelance, Remote | Jeddah, SA

Feb 2025–Mar 2025

A forward-thinking cookware company focused on improving wellness through innovating, non-toxic kitchen products.

- Partnered with company leadership to translate their product vision into a responsive and cross-platform website.
- Conducted regular testing and debugging to ensure cross-browser and cross-platform compatibility.
- Deployed the company's first web presence which enabled higher client outreach.
- **Technologies used:** React.js, TypeScript, SCSS, Git.

PROJECTS

Examiq | Solo Project

Mar 2025–May 2025

An artificial intelligence-integrated proctoring platform that monitors student behavior during online exams using gaze and input tracking to detect potential cheating, while also automating exam evaluation.

- Developed real-time gaze tracking, and automated grading using WebGazer.js and DeepSeek V3.
- Integrated input and behavior tracking using the browser's built in control API.
- Built comprehensive dashboards for teachers and admin to manage exams and review results.
- Deployed publicly to support accessible online proctoring using artificial intelligence at scale.
- **Technologies used:** Next.js, TypeScript, SCSS, Supabase; PostgreSQL, Authentication; RESTful APIs, WebGazer.js, DeepSeek V3, Vercel, Git.

FeelTok | Collaborative Project

Dec 2024–Dec 2024

An emotion-based social media platform where users post updates reflecting their current emotions (happy, sad, love, angry) through text or images.

- Designed and implemented responsive web and mobile user interface with dynamic styling based on emotion type.
- Developed user profile management and secure email and password reset with email-based two-factor authentication (2FA).
- Implemented role-based access control (RBAC) to differentiate admin (web dashboard: moderating users and posts) and user (mobile interface: creating post updates).
- Developed a reporting system where users can report inappropriate users and posts to ensure platform safety.
- Utilized agile methodology platform, Jira and Zephyr, for sprint planning, task tracking, incorporate feedback, managing test cases, and ensure timely delivery.
- **Technologies used:** Next.js, Expo, TypeScript, SCSS, Firebase: NoSQL, Authentication, Hosting; RESTful APIs, Cloudinary, Email.js, Git, Jira, Zephyr, Figma.

Apollo | Collaborative Project

Dec 2023–Dec 2023

A web-based hospital management system for managing patient appointments, medical records, billing, and diagnostics.

- Built dynamic database for doctors and staff for efficient patient moderation and record-keeping.
- Enabled patients to download medical test result for transparency.
- Integrated role-based access control (RBAC) to differentiate receptionist, doctor, and staff user experience.
- Deployed publicly to support any hospital access.
- **Technologies used:** Django, Python, Bootstrap CSS, XAMPP: MariaDB; PythonAnywhere, Git.

EDUCATION

University of Greater Manchester | [BEng \(Hons\) Software Engineering](#) | Ras al Khaimah, AE

Sept 2022–Sept 2025

- **Relevant coursework:** undergraduate project, agile programming, software engineering, data structures & algorithms, machine learning, advanced programming, and software development.
- **Achievements:** delivered several full-stack applications during academic tenure, achieved grade distinction.

Western International College | [BTEC Level 3 Extended Diploma in Engineering](#) | Ras al Khaimah, AE

Sept 2021–Sept 2022

- **Relevant coursework:** electronic devices & circuits, mechanical principles, thermodynamics, and calculus.
- **Achievements:** developed a clap-switch under Institute of Electrical and Electronics Engineers (IEEE) during academic tenure, achieved double grade distinction.
